

BIG APPETITE?

MEGA-LOSAURUS

MEGA-MEAL

Our new Mega-Meal tray is big enough to hold 5 lbs of food, enough to feed any Megalosaurus or handle any size meal.

- **Standard Half-Steamtable size.**
Fits into the steel water pan of heated chafers*.
- **Snap-on Translucent lid.**
Improved order accuracy. No aluminum foil pans & lids to crimp.
- **Stackable.**
Replace aluminum foil covered pans. Takes less space while staging or transporting.
- **Heat-tolerant.**
Withstands up to 240°F, in hotboxes, in warming units, under heat lamps, or in microwaves.
- **Heat-retention.**
Keeps foods hotter, longer.
- **Upscale Design.**
Classic black tray provides a better presentation for your culinary creations.
- **Reuse and Recycle.**
Dishwasher-safe, microwave-safe polypropylene. Customers can use the container again and again. Recycle after months of use.

If you have a large appetite to feed or just some catering to do, contact Anchor or visit our website to find out WHERE TO BUY.
