

Adam's Better Half (Rib)

In the beginning...

Anchor created the Full-Slab Rib Container.

- Leak-Resistant. Award-winning design keeps liquids inside.
- Convenient. Easy to secure flanged dome lid design.
- Excellent Merchandising. Crystal-clear, vented, anti-fogging lid. Maintains food texture while allowing steam to escape.
- Crack-Resistant. Patented design helps eliminate corner cracking.
- Heat Tolerant. Microwavable, polypropylene base that can withstand up to 230°F when used in warming units.

The people saw what Anchor had designed ... and said that it was very good.

But then Anchor heard the cries of its customers...Adam & Eve, Mike & Barb, David & Marianne...

"We need a better half-rib design. We need to feed the multitude with a variety of prepared foods--meals, appetizers, side dishes, and Adam's apple pie."

So Anchor created the Half-Rib Container, with all the same great features and benefits of it's original Full-Slab Rib Container.

And once again, Adam & Eve, Mike & Barb, David & Marianne, and the great multitude they fed, saw what Anchor had designed... and said that it was also very good.

Tempted yet? Contact Anchor for more information on the new Half-Rib Container, and ask how we can help create paradise in your prepared foods department.
