- **A “License to Fill” a Variety of Meal Solutions.** 10 skus, 1 common footprint with 4 platters, 4 matching lids, and 2 combo packs. A standard and deep platter that can hold up to 48 oz. Single and multi-serving meal solutions. 2 or 3 multi-compartment platters and lids that keep food items separated. Handles whatever you can dish out.
- **Takes the heat, cool under pressure.** Microwavable platters with vented microwavable lids or crystal clear cold lids for the perfect merchandising solution.
- **Top security, and a tough “Bond”.** No leaks from this team. Goes from restaurant kitchen to take-out counter to car, to eat at home without replating. Cut-proof, durable.
- **Redesigned by Q.** Quality and Engineering at Anchor teamed up to reduce material, while providing superior strength. That means a value price for you and a smaller carbon footprint for the environment.
- **Ready for their next mission.** The microwave-safe hot platters and lids are dishwasher-safe, consumer reusable and recyclable. The cold lids are recyclable.
