

# Anchor's 3 R's of Sustainable Packaging

## Reduce

Anchor announces a newer, sleeker, compact cutter box design in its foodservice wrap lines. A **44% REDUCTION** in corrugated packaging with the same amount of film wrap. A lighter, smaller box means less paper waste, more boxes per pallet and truck, **REDUCING** transportation fuel costs and optimizing warehousing space.

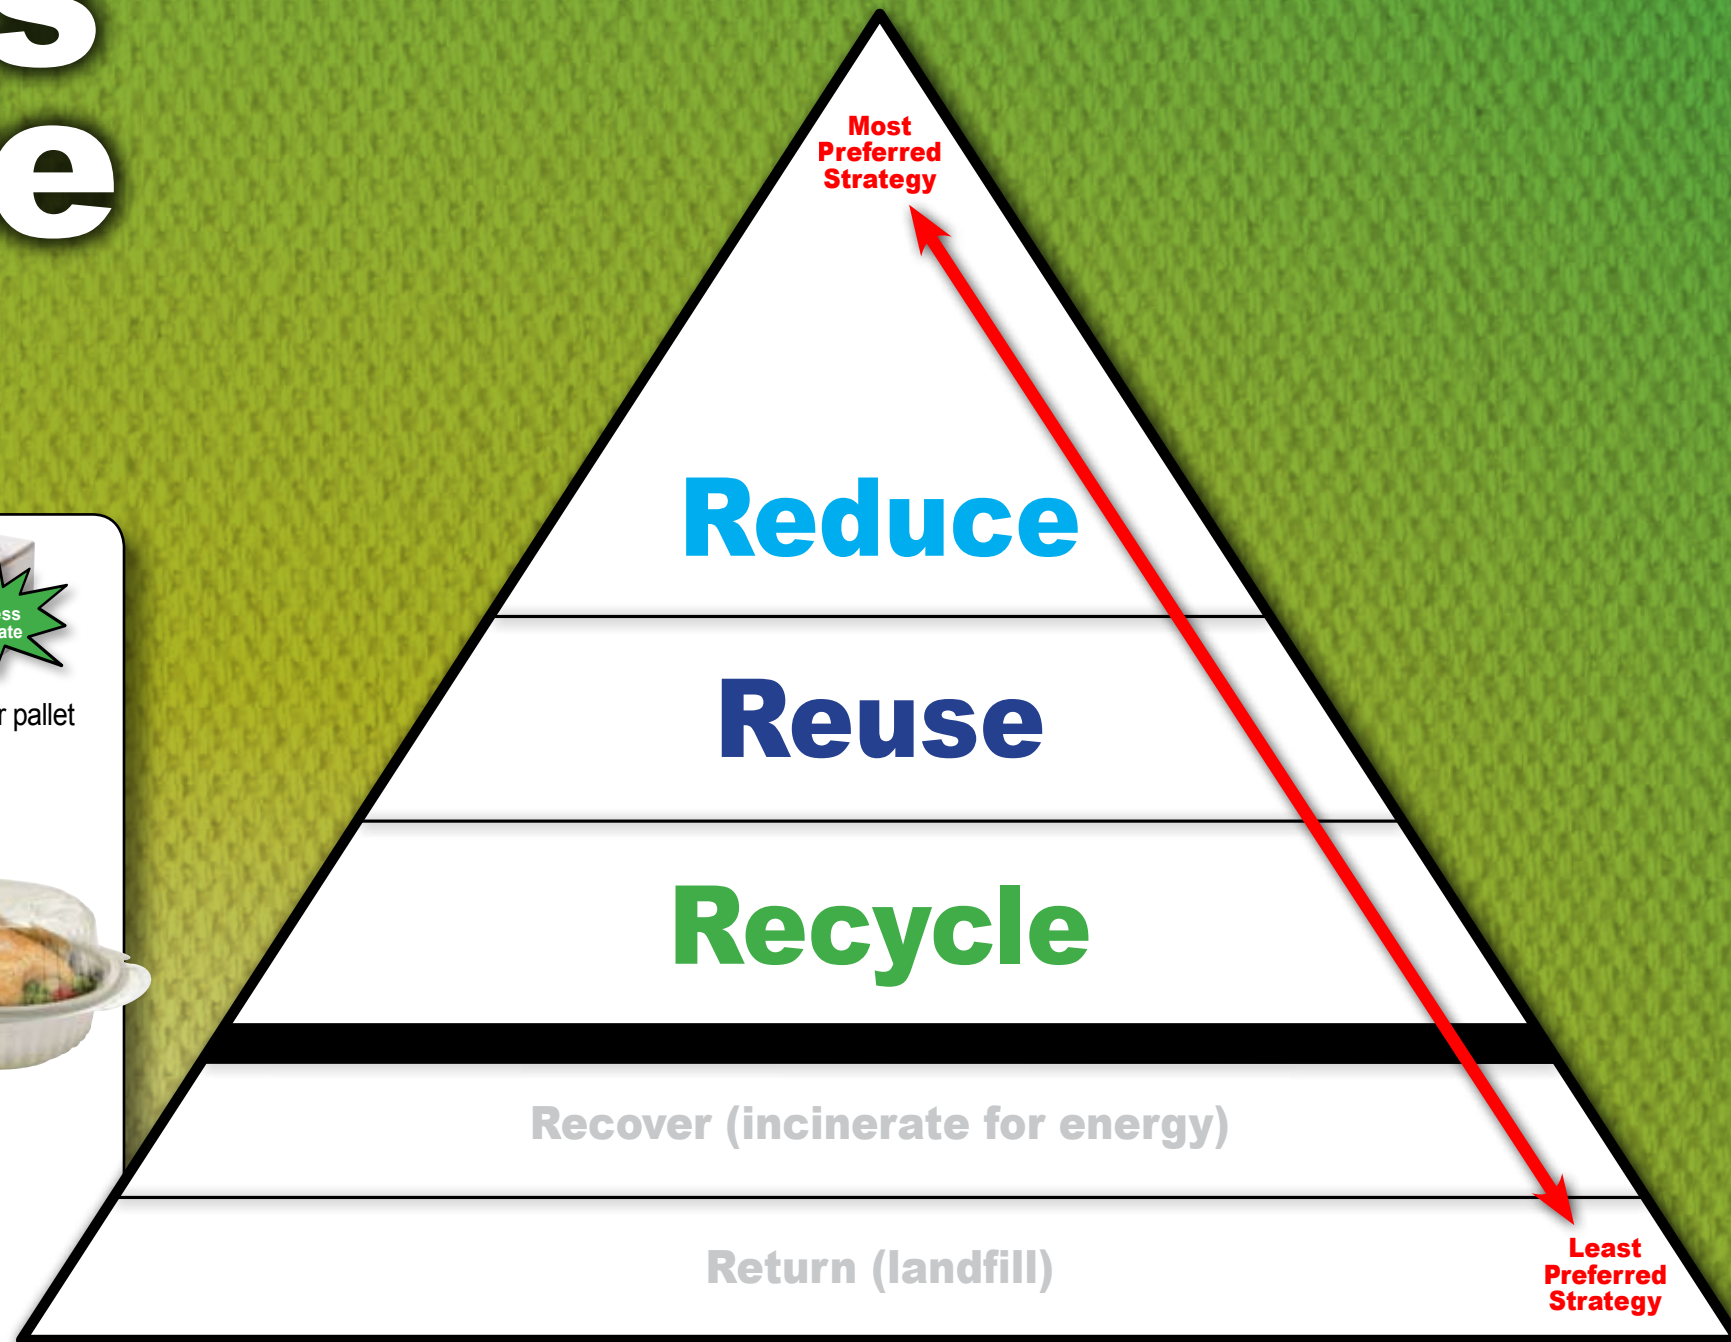

Anchor recently launched a redesigned version of its Award-Winning Culinary Classics line, using new engineering and design technologies that **REDUCED 12%** of the amount of petroleum-based resin in its containers while retaining their performance.

## Reuse

Anchor is the leader in manufacturing consumer-**REUSABLE** takeout packaging, made of durable, microwave-safe, dishwasher-safe polypropylene. When the package is ready for disposal, it can be **RECYCLED**. Anchor offers over 100 products designed to be **REUSED**.

## Recycle

Anchor's takeout container product line is **RECYCLABLE**.  , and aluminum foil sheet and pans. Produced in a green-focused manufacturing environment. Anchor **RECYCLES 100%** of its scrap materials, and continues to work towards minimizing our packaging to **REDUCE** waste and shipping fuel costs.

## SOLID WASTE MANAGEMENT HIERARCHY\*
