

Full of Your Holiday Cheer

New Mega-Meal™ holds more of everything, including your profits this season.

2 NEW BIG SIZES: 80oz. (5lbs) and 100oz. (6lbs) capacities with a single lid. Half steam table pan footprint. Despite their size and capacity, these containers are easier to handle with tabbed corners that facilitate easy removal and reclosing of the lid. Durable and strong enough to stack up to 3 high, saving on space during display or consumer transport. Utilizes 40% natural materials in the base.

HEAT-TOLERANT: Will withstand temperatures up to 230°F when used under heat lamps, or in warming displays. Microwave-safe. And cool to the touch flanges facilitate easy lifting.

BETTER PRESENTATION: With clear vented, anti-fogging lids, the new Mega-Meal provides for much better visibility than similar containers of its size. This means better merchandising of your hot foods. And a durable classic black tray shows off culinary items better. Both tray and lid are tear and puncture-resistant, with the newly designed lid providing a secure fit, and leak-resistance.

CONSUMER REUSABLE: An added bonus for the consumer. It's Dishwasher-safe, made of durable  polypropylene—the same material used in reusable food storage containers sold in stores. Eligible for recycling.

Anchor products are BPA-free.
