

# Nature's Best® Roaster Grande

## Perfect for Rotisserie Chicken up to 6lbs\*

### SUPERIOR MERCHANDISING INCREASES SALES

Large, unobstructed viewing panels in the lid, combined with anti-fog technology and venting, provide a better view driving impulse sales of extra-large rotisserie chickens. Classic casserole base provides the customer with a table-ready presentation requiring no re-plating.

### HIGH HEAT PERFORMANCE AND MICROWAVABLE

Both polypropylene base and lid will withstand temperatures up to 230°F in warming units, under heat lamps, and in the microwave. Raised ridges in the base drain juices away from the chicken to maintain freshness.

\*Pre-Cooked Weight

### LEAK RESISTANT AND DURABLE

Dome lid is easily applied and provides a secure, leak-resistant closure to assure packages remain closed during handling and transport. The inner/outer double seal assures no messy spills. The durable polypropylene material will not crack or warp like polystyrene lids. The rigid base and lid protect the food integrity for a picture-perfect presentation.

### REDUCE-REUSE-RECYCLE

Bases are made with natural mineral additive reducing the use of petroleum based polypropylene resin by 40%. Consumer reusable and dishwasher safe, bases and lids remain eligible for recycling after multiple uses. ♻️
