Subject: FDA Compliance for PVC Film

Date: January 4, 2023

Anchor Packaging guarantees that the PVC Films, which it manufactures and sells for use in wrapping meat, poultry, fish, cheese, produce and other similar food products, comply with the FFDC A and all applicable food regulations, including the following Title 21, Code of Federal Regulations:

181.32	178.2010	174.5	167.180
	175.300	(Prior Sanctioned as GRAS)	

The materials used in the manufacture of Anchor PVC Films meet FDA and all applications.

It is not recommended to use the film in ovens or microwaves.

Anchor Packaging does not use Latex in the manufacture of its PVC Films, nor are Latex gloves used at any time in either the manufacturing process of our PVC Films or in the packaging process.

Anchor Packaging is a processor of PVC and induces no changes that would affect compliance with FDA regulations. We believe the foregoing statements are in full compliance with the present USDA policy regulating packaging materials for use on food products.

Anchor relies on good faith with its suppliers and guarantees compliance of the products as described above up to the time the products are shipped. Thereafter, it is the responsibility of the customer to assure that all applicable conditions and specifications outlined under the above-mentioned regulatory categories are maintained.
