Subject: Certificate of Compliance for Molded Fiber N-Series Foodservice Products – PFAS

Date: February 15, 2023

This letter is in response to your request for more information regarding the use of PFAS in our molded fiber products. Please be advised that fiber products identified with an “N” do not contain intentionally added PFAS. Anchor Packaging relies on literature from our suppliers to guarantee compliance with our products. Although Anchor Packaging does not analyze for PFAS content over 100 ppm, based on the documentation of our suppliers, we do not expect this substance to exceed these limits in our final product.
