Subject: Certificate of Quality and Food Safety

Date: January 4. 2024

All Anchor Packaging products are manufactured under strict guidelines established within international and national standards and assembled by skilled workers following strict guidelines according to company policies and procedures that include GMP and HACCP programs.

Anchor Packaging is audited annually by a third-party certification body. Each audit is recorded and confirms Anchor Packaging's manufacturing quality; processes and supply standards are upheld and maintained within the criteria set forth by the auditing authority under national and international guidelines. Anchor Packaging upholds and maintains a high standard of craftsmanship in every aspect of manufacturing. Polypropylene container application includes Cold Foods, Refrigerated Foods, Hot Foods, Heat Lamps, Warming Units and Microwaves at temperatures up to 230°F.

Anchor Packaging products are recognized and confirmed with a high safety standard, top-quality craftsmanship, and professionalism. Our quality assurance program is a long-standing ongoing and continuous improvement process in ensuring total production in accordance with customer requirements, pertinent regulations, etc....as reflected in the Anchor Packaging safety criteria.

We hereby state that our products can rightly be considered safe for final use according to "good manufacturing practices."
